MAHNOOR FAISAL

SOFTWARE ENGINEER

Karachi, Pakistan | +92 319 8972882 | faisalmahnoor86@gmail.com | LinkedIn | GitHub | Portfolio

SUMMARY

Frontend Developer with 3 years of experience developing web and mobile applications using React, Next.js, and modern JavaScript technologies. Experienced in AI-assisted development, with 1 year of hands-on experience using Claude Code, ChatGPT, and Gemini for code generation, debugging, refactoring, and problem-solving. Skilled in translating business requirements and Figma designs into responsive, user-friendly interfaces.

WORK EXPERIENCE

Software Engineer *Dec 2024 - Present*

1Percent Labs, UK

- Leading frontend development for BuoyHub.com, working on new features and improving existing functionality across the platform.
- Accelerate development lifecycles and enhance code quality by integrating AI assistants (Claude Code, Gemini, ChatGPT) into daily workflows for rapid React component generation, legacy code comprehension, and automated refactoring.
- Building web applications using React.js, Next.js, TypeScript, JavaScript, HTML, and CSS.
- Developing mobile applications using React Native.
- Turning Figma designs into responsive, user-friendly interfaces using Material UI, Tailwind CSS, and other UI libraries.
- Working with Twenty CRM to customize features and support business requirements.
- Using Python and Django to understand backend functionality and support API-related development.
- Coordinating with QA and other developers to resolve issues and deliver features on time.

Associate Software Engineer

1Percent Labs, UK *Dec 2023 - Nov 2024*

- Developing and maintaining web pages using vanilla JavaScript, HTML5, and CSS3.
- Turning Figma designs into responsive, user-friendly interfaces using Bootstrap, and Custom CSS.
- Collaborated in Agile sprints to incrementally deliver frontend features, modernize legacy UI components, and improve overall platform usability.

Front End Development Intern

Tixsee Lab , Karachi *Aug 2023 - Oct 2023*

- Built and updated web interfaces utilizing vanilla JavaScript, HTML5, and CSS3 under the guidance of senior developers.
- Successfully translated Figma design files into responsive layouts with Bootstrap, ensuring alignment with client requirements and technical specifications.
- Participated in code reviews and debugging sessions to rapidly improve foundational frontend skills and code quality.

PROJECTS

BuoyHub — Business Services Web Portal **Website Link**

- **Led frontend development** and **contributed to backend development** for a multi-product business services platform.
- Built and enhanced **user interfaces**, **developed backend APIs** using Python and Django.
- Leveraged **Claude Code** for ticket analysis, code implementation, debugging, refactoring, and testing.
- Applied **AI-assisted development** and **prompt engineering** to solve technical challenges and improve development efficiency.
- Collaborated with cross-functional teams to troubleshoot issues, validate functionality, and deliver product enhancements.

Snuggle Script — Mobile Application

- Developed the mobile app frontend using **React Native**, creating responsive and user-friendly interfaces.
- Implemented UI animations and interactive design elements to enhance the user experience.
- Translated design requirements into polished mobile screens with consistent layouts and smooth transitions.

ACADEMIC PROJECT

NLP TaskPro — AI-Powered Task Management System

- **Led project development**, building the frontend with **Next.js** and integrating **Firebase** for backend services and data management.
- Developed an **AI-powered voice command system using Gemini API** and **Web Speech API** to create, assign, and move tasks through natural language instructions.
- Applied **prompt engineering**, structured JSON parsing, **Tailwind CSS**, and state management to translate user commands into actionable tasks and deliver a responsive, seamless user experience.

SKILLS

AI Development Tools	Claude Code, ChatGPT, Gemini, AI-assisted workflows, prompt engineering for code generation, MCP-based tooling (exploratory use)
Languages	JavaScript (ES6+), TypeScript, HTML5, CSS
Frontend	React.js, Next.js, React Native, Redux Toolkit, React Query, React Hook Form, Zod
UI & Styling	Material UI (MUI), Tailwind CSS, Bootstrap, custom CSS
Backend & CRM	Django, Twenty CRM, API integration support
Developer Tools	Git, Github, Figma, Vite

EDUCATION

Bachelor’s of Software Engineering *Feb 2021 - Feb 2025*

University Of Karachi - UBIT
